# *Welcome Message*

*from TAEF Chairman*

---

Welcome to the 2018 Yushan Forum: Asian Dialogue for Innovation and Progress. As the Chairman of the Taiwan-Asia Exchange Foundation (TAEF), it is my great pleasure to announce the theme of this year's Forum: "Working Together for Regional Prosperity". The Yushan Forum is truly the best platform for regional stakeholders to formulate shared blueprints towards prosperity in the Indo-Pacific region.

Since President Tsai Ing-Wen launched the New Southbound Policy (NSP) in 2016, Taiwan has been strengthening partnerships with neighboring states and like-minded countries, while deepening our commitment to peace and prosperity in the region. Taiwan's global participation has also reached an unprecedented level in the past two years. Despite some challenges remain ahead, Taiwan is increasingly working in tandem with international friends to address them.

On behalf of the organizing team of the 2018 Yushan Forum, I would like to express my sincere gratitude to the foreign and domestic guests who join us today. Your attendance is a great encouragement to Taiwan's New Southbound Policy, and we look forward to hearing your insights on how we can realize inclusive growth and people-centered development in this region together.

Dr. H. H. Michael Hsiao  
Chairman of Taiwan-Asia Exchange Foundation

## *about Yushan Forum*

---

The *2018 Yushan Forum: Asian Dialogue for Innovation and Progress*, is held by the Taiwan-Asia Exchange Foundation (TAEF). The Yushan Forum serves as a platform for Asian regional dialogue and features the achievements of governmental and non-governmental cooperation between Taiwan and its neighboring partner countries. Based on the unique experiences and common visions of Taiwan for regional prosperity, and as illustrated by its 2018 theme, the Forum aims to foster social connectivity for Asia's next generation based on innovation and progress, alongside promoting multifaceted regional linkages and strengthening partnerships.

The inaugural Yushan Forum, with the theme “Fostering Social and Economic Connectivity with Southeast and South Asia,” was launched in 2017. More than 800 participants from over 20 countries attended 2017's forum. It was composed of six sessions: economy and trade, human resources, technological innovation, NGO engagement, think tank collaboration, and youth dialogue.

This year, Yushan Forum contains eight sessions: Nourishing the Future, Facilitating Public Health Collaboration, Activating Regional Agriculture, Reinforcing Industrial Innovation, Connecting Asian Societies, Linking up the Policy Communities, Engaging Asian Young Leaders, and Sharing Cultural Richness.

Located in Taiwan, Yushan—also known as “Mount Jade” or “Tongku Saveq” in the language of the local indigenous Bunun people—is the highest summit in East Asia. It is also a symbol of Taiwanese aspirations for excellence, and warm friendship towards people from neighboring nations.

The logo and event background banner design of Yushan Forum also highlights this symbolism, which combines Taiwan’s land and maritime geographical features with its human landscapes, while also presenting Taiwan’s “New Southbound” vision. The three thick and five thin gold lines in the main design represent the three potential-laden fields and five flagship projects of Taiwan’s New Southbound Policy, which we hope will embrace the world alongside Taiwan's cultural waves.

*about* **TAEF**  
*Taiwan-Asia Exchange Foundation*

---

Established in 2018, the Taiwan-Asia Exchange Foundation (TAEF), based in Taipei City, is the first policy-oriented think tank in Taiwan with a focus on Southeast Asian and South Asian affairs. In the spirit of the New Southbound Policy (NSP), the goal of TAEF is to promote comprehensive ties and strengthen partnerships between Taiwan and the 10 ASEAN countries and 6 South Asian nations as well as Australia and New Zealand through cooperation and exchanges.

TAEF is devoted to building new mechanisms for regional cooperation among Asian societies. It is our goal to cultivate common policy blueprints for Taiwan, ASEAN and South Asian states through frequent regional dialogue, while also highlighting the commitment and contributions of Taiwan towards developments in Asia by concreting initiatives for cooperation.

In addition, TAEF also hosts various international conference and exchange programs, such as “*The Yushan Forum: Asian Dialogue for Innovation and Progress*,” aiming to strengthen ties with our partner states and societies in the region, while also inviting other like-minded countries to participate in regional dialogue.
